INTRODUCTORY

IN presenting our price list for 1912 we again take this opportunity to thank our customers for their very liberal support and patronage, and to assure them that their orders will receive as careful attention in the future as they have done in the past.

All our business relations last year were exceedingly satisfactory. We did not receive one complaint regarding the quality of the stock sent out, but on the other hand, many customers wrote thanking us for the high quality of stock sent them; all of which we very much appreciate.

This year we have more than doubled our greenhouse capacity, and have otherwise added considerably to our stock and facilities, and are now in a better position than ever before to handle high class stock.

We shall always exert ourselves in maintaining our reputation for high class goods, and those who intrust us with their patronage may rest assured that the stock supplied will be the very best procurable.

CHRYSANTHEMUMS NOVELTIES FOR 1912

The Chrysanthemum novelties which we listed last year again stood out prominently on the exhibition tables and averages as high a percentage of good things as those of other introducers did which were listed at a much higher price.

We offer again a select list of good things. We have been severely critical in their selection and offer only those that have shown exceptional merit with us.

The stock sent out will be strong and healthy, from 2¼ inch pots, and success from the start will be assured.

Countess of Granard. Rich yellow, a huge flower of first quality, partakes of F. S. Vallis, but superior. Good habit, stem and foliage. Take bud August 10th to 15th.

D. B. Crane. Deep golden yellow, slightly streaked with red, petals recurving at tips. Makes a flower of largest size and finest form. Take bud August 10th to 15th.

Earnest G. Mocatto. An immense flower of the F. Vallis type, but a much richer yellow. Stem and foliage perfect.

For exhibition take buds August 15th. Terminal buds may be taken later. Will give good flowers for Thanksgiving.

J. H. Cocken. A fine, large, well built flower, brilliant scarlet with golden reverse, reflexing just at the tips, thus showing its fine color to perfection. Strong, robust habit. Height, 4½ feet. Bud August 10th to 15th.

John B. Meakins. A large flower of the purest snow white, a true reflex, fine form and build, and a splendid keeper. Take bud August 10th to 15th.

Lady Francis Ryder. A refined flower of largest size and purest white, of reflex form, quite distinct from anything we have in whites. A sure winner. Take bud August 10th to 15th.

Laura Hill. A flower of medium size, a beautiful shade of red, with gold reverse, distinct and striking. Bud August 20th to 25th.

Leviathan. A monster flower, very full and deep, creamy white shaded with pink. Strong robust habit. Good on any bud. Take bud for exhibitions August 15th to 20th.

Mrs. Gilbert Drabble. Marble white, has created a big sensation in England this past season. Measures fully 9 inches either way, and as handsome as they are large. Price of Mrs. G. Drabble, \$2.00 each; \$20.00 per doz.

Prices (except where noted) 50c. each; \$5.00 per doz.

HARDY POMPON CHRYSANTHEMUMS.

No finer plants can be grown in the hardy border for late fall flowers than these hardy Pompon Chrysanthemums. Or if grown in open frame or beds all summer and protected from early frosts, they will repay you with much nicer flowers. They can also be safely lifted in early fall when in full bud, and potted up or placed in flats, and there is no finer plant in their season for conservatory, window, or house decoration.

CARNATIONS.

Novelties for 1912.

Benora (Fisher). Another sterling novelty from the man who has raised the very best carnations we have got. The raiser says "Benora comes so near being an ideal carnation that it is difficult to find a fault in it. It is early, extremely free; the flower is large, full, and of superb form; ground color clear white, beautifully penciled with bright red. Produced on long, wiry, stiff stems, and a calyx that rarely bursts.

Wodenethe (Totty). This phenomenal white carnation was unanimously awarded a first class certificate by the awards committee of the New York Florists Club, and scored at that time 93 points out of 100 possible. Such a score speaks for itself. The flowers are perfectly formed, running from 4 to 4½ inches, pure white and delightfully fragrant, and a none buster. The demand will be heavy. Order early.

Brooklyn (Weber). Dark cerise pink; might appropriately be called a much improved Wm. Scott. A phenomenal producer, a real bread and butter type.

ROSES (INDOOR).

Novelties for 1912.

Sunburst (Hill). Unquestionably the finest yellow rose ever sent out, and will surely displace all other yellow roses for greenhouse use. The color is richer than Mrs. Aaron Ward. The bud is large, full and long pointed, and it is one of the strongest growers we have ever seen. A sure winner.

Hammond's Grape Dust. A preventative and cure for mildew and blights on roses, currant, gooseberries, etc. 5 lb. package, 40c.

ROSES (INDOOR).

Novelties of 1911.

Rose Queen (Hill). This grand rose has fully come up to expectations. The color is a true, clear pink, like a perfect Testout. It flowers freely all winter, and is free from mildew.

Melody (Dickson). This might be best described as an improved Perle, but the color is more intense, and shows yellow under an artificial light.

Melody supplied on own root only.

Double Pink Killarney. An improvement in every way upon the old Killarney; fuller, stronger, freer, and a better shipper. Will surely displace the old variety.

INDOOR GRAPE VINES.

We have a large stock of home grown grape vines. One and two year old for grapery planting. The eyes for propagation were all taken from the best private graperies where the highest class of stock is produced. They are all pot grown, and are superior in every way for planting canes to the imported stock. We can supply the following varieties, viz:

Black Hamburgh. Best black for early grapery.

Buckland Sweetwater. Best white for early grapery.

Muscat of Alexandra. Best white grape for second early.

Madersfield Court and Muscat Hamburgh. Both good black grapes for second early.

Indoor Grapes (Continued).

Foster's Seedling. Best white grape for late graperly.

Gros Colmar. Fine large black for late graperly.

Prices.

One year old vines, \$2.00 each.

Two year old vines, \$3.50 each.

Diamond Jubilee. Black, one of the newer mid-season sorts.

Milton Constable. Black, one of the newer mid-season sorts.

\$5.00 each.

Also Large Imported Plants, suitable for fruiting in pots, in the above varieties if ordered before February 15th.

Price, \$5.00 each.

IMPORTED POT GROWN FRUIT TREES.

PEACHES.

Duchess of Cornwall. An early Peach, medium size; freestone. Skin creamy yellow, with a red-striped check. Melting and delicious.

Grosse Mignonne. Large; melting and excellent; forcing well, and is one of the finest sorts for cultivation.

Hale's Early. Large; melting and very good.

Peregrine. A distinct mid-season variety. The fruits are large and handsome, with a brilliant crimson skin; the flesh rich and highly flavored.

Princess of Wales. Very large. One of the largest and best Peaches known, and one of the most beautiful; its color is cream with a rosy cheek; melting, rich and excellent.

Thomas Rivers. A large round Peach, with a bright red cheek. Flesh firm, juicy and of good flavor; a remarkably heavy fruit. Freestone. Forces well.

Prices for above varieties, \$3, \$5, and \$7.50 each.

NECTARINES.

FERTILIZERS.

We are regular agents for the sale of Rogers and Hubbard's celebrated bone base fertilizers, and will be glad to quote bottom prices, where a quantity is needed.

Hubbard's Pure Raw Knuckle Bone Flour. This is the kind you want for your Roses, Mums and Carnations. The bone is white, raw, and fresh, and in a perfectly natural condition. This bone is not dissolved with acid, but is **ground** to a white flour, and is quickly available as a plant food. Do not confound this with the ordinary brands of bone, which are dissolved with oil of vitrol. They are all right for the open fields, but positively dangerous in a greenhouse.

Per bag of 100 lbs, \$3.00; per ton, \$45.00.

Hubbard's Bone Base Complete Fertilizer. This is what you need for your garden and general crops. Consists of pure animal tankage, nitrate of soda, and potash salts, and does not contain one pound of acid phosphate.

Per 100 bag, \$2.50; per ton, \$45.00

Hubbard's Bone Base Soluable Potato Manure. Made up of pure dissolved raw knuckle bone, nitrate of soda, pure animal tankage and sulphate of potash. This is a highly concentrated fertilizer and is good for general crops as well as potatoes.

Per bag of 100 lbs., \$3.00; per ton, \$52.00.

Also Hubbard's Bone Base, "Grass and Grain Fertilizer," "Oats," and "Top Dressing Fertilizer," and others, on which prices will be gladly quoted.

Clay's Fertilizer. 56 lb. bags, \$4.00; 112 lb. bags, \$7.00.

GRASS SEED.

Elmsford Evergreen Lawn Grass Mixture—We have made an extensive study of grasses, and have here combined in one mixture several of the very best kinds in such proportions as will give the best results. Some of the kinds are naturally early and give the lawn a bright color as soon as spring opens up. Others will stand the heat and drought of summer, and others again will keep growing until late in the Fall. We consider our "Elmsford Evergreen Mixture" to be as good as any on the market to-day.

For new lawns, sow 85 to 100 lbs. to the acre. Per bushel (20 lbs.), \$6.00.

The Elmsford Shady Spot Grass Mixture—A combination of grasses that naturally grow in shady places, of guaranteed purity, and free from weeds. Per bushel, \$6.00.

Permanent Pasture Mixture—A combination of various grasses recognized for their good pasturing qualities, a combination that will keep growing from early Spring until late in the Fall. Sow 50 to 75 lbs. per acre.

Per bushel (14 lbs.), \$3.50.

Hay Mixture—A superior mixture, suitable for hay and permanent pasture, of guaranteed purity. Sow 40 lbs. per acre.

Per bushel (14 lbs.), \$3.50.

INSECTICIDES AND FUNGICIDES.

Alphine. An effective and easily applied spray remedy for insects of all kinds, in which we have absolute confidence. Mixes at once with water and is easily applied. We dipped all of our cuttings in this last year before putting them in the cutting bench and again before potting into their first pots, and we were never freer from insects of all kinds, particularly these troublesome little thrips on chrysanthemums. An effective remedy for scale on palms, crotons, etc.

To be used according to directions on each can.

Price, per gallon, \$2.50; Quart, \$1.00; Pint, 65c.

Fungine. A suitable companion to Alphine by the same manufacturers. An infallible remedy for mildew and other fungus diseases. Particularly adapted for use in greenhouses against mildew on Roses, Mums, etc. A safe, clean and easily applied Fungicide which does not stain the foliage.

Used as a spray at proportion of 1 to 50.

Price, \$2.00 per Gallon; 75c. per Quart.

Scalecide, (Pratt's). The best, cleanest, safest and most easily applied remedy for San Jose Scale on the market. It is non-poisonous and mixes readily with cold water. Apply in late Fall or early spring, when foliage is off. Applied as directed it will kill every scale it touches, without injury to the trees or fruit buds.

Price, per 1 Gallon, \$1.00; per 5 Gallons, \$3.25; per 10 gallons, 6.00; 50 Gallon Barrel, \$25.00.
